

The New York State Education Department (NYSED)
and The Centers for Disease Control and Prevention (CDC) requests

Name of school here

to participate in the 2024 School Health Profiles (SHP).

The SHP is an online survey conducted biennially -
assessing school health policies and practices in schools.

The survey is completed by middle and high school
principals, and lead health education teachers.

SHP data is used by leaders and decision-makers, in
schools, school districts, and state education agencies to
understand gaps in policies and practices and to identify
health education curriculum needs of students.

School Health Profiles (SHP)

What you need to know about completing the School
Health Profiles (SHP):

- There is one survey for the principal and one for the lead health education teacher.
- The survey is completed online using Survey Monkey.
- The principal is asked to provide the lead health education teacher's name, email, and phone number.
- The principal may assign a delegate to complete all or part of the principal's survey.
- NYSCSH offers a dedicated Help Line, 585-617-2380, Monday through Friday, 8:00-4:00.
- Be sure your IT department allows you to receive emails from Survey Monkey

Please call the NYSCSH if you have any questions or concerns about the SHP, at 585-617-2380.

Your participation is greatly appreciated.
