New York State Center for School Health

Supporting Student Success Through Health and Education

160 Wallace Way, Bldg 9, Rochester, NY 14624

Dear Principal,

Since 1992, the New York State Center for School Health (NYSCSH) has been a contracted technical assistance and resource office of the New York State Education Department (NYSED).

NYSED encourages all school health professionals to visit and use the NYSCSH website as a resource and subscribe to the Health Information Portal (HIP) to receive emails. The Center provides current, accurate, and evidence-based information on health education and health services regulations, guidance, and best-practices, as well as professional development in-person and online.

We look forward to providing support to school health professionals.

The NYSCSH Team
