

CDC Concussion Technical Requirements

What is Needed to Take this Training?

To complete this training course, you will need to use a computer, tablet, or smartphone with an internet connection. This training works best with a high-speed, broadband internet connection, as well as an up-to-date web browser and operating system. Older computers may crash while using the training. Please review the following system requirements for the best training experience:

For computer access

PC:

- Windows Vista – Windows 10
- 2GB RAM
- 3D Capable Video with at least 512MB of RAM and DX9 (shader model 2.0) support.
- Chrome 43+, Firefox 37+, Edge 25+
- Javascript and cookies must be enabled.
- Pop-ups allowed for learn.kognito.com and [landing page]
- Broadband Internet connection (256 Kbps & above)
- No network blocks or filters that disable streaming media

Mac:

- macOS 10.7 – 10.12
- 2GB RAM
- 3D Capable Video with at least 512MB of RAM and OpenGL 2.0 support.
- Safari 8.0+, Chrome 43+, Firefox 37+
- Javascript and cookies must be enabled.
- Pop-ups allowed for learn.kognito.com and [landing page]
- Broadband Internet connection (256 Kbps & above)
- No network blocks or filters that disable streaming media

For mobile access

iOS: version 7 or higher

Android: version 2.3 or higher

Closing or refreshing your browser while taking the training course will take you back to the beginning of the training. However, your progress will be saved. You can return to your last completed session using the clipboard found in the top left-hand corner of your screen. You may also log out and log back in to the training at any time to continue your session.
