

**New York State Center for School Health**  
*Supporting Student Success Through Health and Education*

Thank you for sharing your feedback about the School Medical Director (SMD) Page and the NYSCSH Website.

We value the knowledge and skills you provide to the districts and schools you serve.

Dr. Ron Marino is employed as a consultant to the Center to assist us in providing you with guidance and resources to address the challenges you face in your role.

Our goal is to provide responses that include the most current information available from the NYS Education Department and evidence-based medical resources.

To assure that we can respond quickly, we have created a

**School Medical Director Request for Assistance Form**

It is available on the SMD page of the website and will allow you to summarize your concern or request and provide your contact information so we may respond appropriately.

Click [here](#) to visit the NYSCSH SMD page and view the request.
