## School COVID-19 Testing Consent Form

The Governor's <u>Cluster Action Initiative</u> and the <u>New York State Department of Health (NYSDOH)</u> requires schools providing in-person instruction to test specific percentages of in-person students, teachers, and staff for COVID-19 if the school is in a designated yellow, orange, or red zone, in order to hold in-person teaching. There are two kinds of tests for COVID-19: the PCR test and the antigen test (also known as a rapid test). Both tests require a specimen (sample) be collected (taken) from the person being tested. The sample is then tested to find out if the person has COVID-19. How a sample is collected depends on the type of test being used.

Only students whose parents/guardians has provided this signed consent form to the school will be tested. A sample will be collected from your child by: ☐ Our school health personnel Health personnel from: The following type of sample will be collected at school: ☐ Oropharyngeal Swab (throat) collected by trained healthcare personnel; or ☐ Nasal Swab (front/sides of nose) collected by trained healthcare personnel; or ☐ Nasopharyngeal Swab (deep in nose) collected by trained healthcare personnel; or A saliva (spit) sample from the mouth collected by the child while supervised.
